

## Screening Clients By Insurance Coverage For Cubby Beds Coded E1399- “No Go Payers”

No-Go Payers Include:

- Payers who won't provide coverage for E1399 (unless explicitly stated in UPD to use alternative code)
- Payers who Will Not provide Prior Authorization
- Payers that have not been providing payment at Billing & Collections or margin is too low

If the referred potential client has any one of these health plans as their primary insurance, we will not be able to pursue coverage for a Cubby Bed.

**Talk Track:** Thank you for providing your insurance information. Upon reviewing your benefits and coverage with your insurance plan, we have determined that your plan will not provide authorization for coverage for the class of bed that Cubby Beds are coded. If your child qualifies medically, we may be able to pursue coverage for safety beds like the Haven from Beds By George or Insight Bed from Sleep Safe. Would you like to move forward with the evaluation process for one of those beds?

**In addition to the below list of No-Go Payers, All Managed Medicaid Plans and Medicaid in: Arizona (except Mercy Care Plan Medicaid/AHCCCS), Illinois (except Aetna Better Health of IL Manual (WC)), Louisiana, Maryland, North Carolina, Texas, New York won't provide coverage for E1399 Cubby Beds.**
