

Dear Participant:

You are receiving the attached notification based upon Department of Labor (DOL) regulations, or if your plan is not subject to ERISA, for general information purposes. The DOL regulations, sometimes referred to as ERISA 404(a)(5), require plan sponsors of ERISA plans that are participant-directed to make specific disclosures about plan fees and investments to participants, beneficiaries, and employees eligible but not yet participating in their retirement plan.

No action is required on your part - this document is being sent to you for informational purposes only. You will receive an updated document on an annual basis.

To assist you with understanding the disclosure document, a reference guide titled: “Understanding Retirement Plan Fees and Services An Overview of the Plan Investment Options and Fees Report” is available at the following address: www.prudential.com/404aUserGuide.

If you have questions about this disclosure, please refer to Part IV for information on who to call.

NATIONAL SEATING & MOBILITY, INC 401(K) PLAN
PLAN 763125 ("Plan")
OVERVIEW OF PLAN INVESTMENT OPTIONS AND
FEES
AS OF: October 31, 2022

As a participant in the Plan, you have the right to choose how your contributions will be invested. This overview of investment options is an important starting point for helping you decide which plan investments might be best for you. This document is for informational purposes only; no action is necessary.

Getting Started

As you make your investment choices, you should think about how much money you'll need after retirement, your long-term investment goals, and how comfortable you are with risk. All investments have some level of risk and your account balance will increase and decrease as market conditions change. For these reasons, you should consider the benefits of a well-balanced and diversified portfolio.

This document enables you to compare investment performance and investment-related expenses and fees for each of the Plan's investment options. You can access additional information about each investment option, including the most recent performance information, and a glossary of investment-related terms as follows:

If you have a Prudential account, log into www.prudential.com/online/retirement

If you do not have an account, see www.prudential.com/planinfo

What you should know about investment performance

Investment performance is the investment's return after expenses are deducted. This overview shows the average yearly total return for each investment over the past 1, 5, and 10 years, or since the beginning of the investment. For each investment with a variable return, the overview also provides a benchmark which enables you to compare the performance of the investment with a broad based securities market index. Broad based securities market indices may

not always correlate well to an individual option. For example, an employer stock investment option is not diversified and is not managed to perform similarly to a benchmark, and therefore its performance should be expected to deviate from the benchmark performance. Performance for investment options that invest in a blend of both stocks and bonds (e.g. lifestyle funds or balanced funds) may also be expected to deviate from the benchmark performance. Past performance is not a reliable indicator of future performance, but it may help you assess an investment's volatility over time.

What you should know about investment fees and expenses

As with any business, there are costs to manage investments. Investment options typically pay their operating expenses, including expenses for investment management and distribution fees, out of assets of the investment. To help you compare fees and expenses, the overview includes each investment's total annual operating expense expressed as a percentage of the investment's net assets, but also as a dollar cost for each \$1,000 invested. Some investments have additional fees that may be charged directly to the investor, such as sales charges (load), purchase fees, redemption fees and exchange fees. These fees, if applicable, will be described in the column titled Additional Fees, Restrictions, and Notes.

The cumulative effect of investment fees and expenses can substantially reduce the return on investments and, therefore, your retirement savings. However, fees and expenses are only two of many factors to consider when deciding what investment is appropriate for you. For more information about the long-term effect of fees and expenses, visit the U.S. Department of Labor's Web site at <https://www.dol.gov/sites/dolgov/files/EBSA/about-ebsa/our-activities/resource-center/publications/a-look-at-401k-plan-fees.pdf>

Participants are encouraged to review all materials provided by the Plan and the investment manager when making investment decisions. Keep in mind you may not invest directly in the benchmark index.

+For Mutual Funds, this column shows the gross expense ratio.

Some of the plan's administrative expenses are paid from the total annual operating expenses of one or more of the plan's designated investment alternatives (e.g., through revenue sharing arrangements, 12b-1 fees, or sub-transfer agent fees). A portion of the total annual operating expenses of one or more of the plan's designated investment alternatives is credited to your account and the amount credited is invested in the designated investment alternative(s) to which the credit is attributable. Refer to statements for amount credited. In the event revenue cannot be credited back, it is invested into the plan's default investment alternative.

Where the Total Annual Operating Expense is shown as N/A, (as a result of the information not being available as of the date of this disclosure document), please refer to your plan's website under the Investment section for this information.

Fixed Return Investments				
	Net Crediting Rate (Annualized)	Term	Other	Fees, Restriction and Notes
Stable Value

Investment management fees may also apply. The crediting rate shown is net of these fees. Generally, distributions resulting from your termination of employment, retirement, death or disability, hardship withdrawals and minimum required distributions will always be paid in full without any fees or restrictions and will not be deferred. Prudential reserves the right to defer certain other withdrawals from GIF assets if your plan's pool level cashflow exceeds 10% of the pool's beginning of calendar year balance. A pool consists of similar contracts that are funded with us in the same calendar year. This availability of withdrawals and distributions is subject to the specific provision of your retirement plan. <p>Amounts withdrawn from this investment may not be transferred to a competing fund for a period of 90 days after the withdrawal date. Competing funds are generally short term fixed income investments, money market investments, or stable value investments that may be available in your plan.</p> <p>If the SEC has suspended or otherwise restricted trading, or another emergency outside of our control exists, Prudential may defer transfers, distributions or disbursements for up to six months.</p> <p>Additionally, when your Plan's group annuity contract terminates, payments from the Guaranteed Income Fund may be delayed depending on the terms of the group annuity contract (which may result in a delay in payments by the Plan). PART III: ANNUITY OPTIONS AND OTHER GUARANTEED LIFETIME INCOME OPTIONS

Your plan uses one or more investments offered through a group annuity contract that includes annuity features that may be available to you. Availability of these features may be subject to the terms of your plan and/or approval by your plan sponsor. Annuities are insurance contracts that allow you to receive a guaranteed stream of payments at regular intervals, usually beginning when you retire and lasting for your entire life. Other Guaranteed Lifetime Income Options include insurance contracts that allow you to receive a guaranteed minimum withdrawal benefit amount each year beginning when you lock in and lasting for the rest of your life. These investment products are issued by insurance companies. Guarantees of an insurance company are subject to its long-term financial strength and claims-paying ability. For more information regarding available annuity options, please refer to the contact information provided in Part IV of this document.

- The trading pattern did not result from automatic or system-driven transactions such as payroll contributions or loan repayments, re-mapping transactions, hardship withdrawals, regularly scheduled or periodic distributions, or periodic rebalancing through a systematic rebalancing program that is

not initiated by the Plan.

Certain investment options may not be subject to these restrictions. Funds may also have their own market timing policy, and Prudential Retirement will take action, as directed by the investment provider, to enforce that provider's rule or policy.

Endnote

01JZ	Performance displayed for periods beginning earlier than the "Inception Date" is based on the historical returns of the oldest share class of the fund, adjusted to reflect the fees and expenses of this share class. "Since Inception" performance when shown is based on the actual performance of this share class.
02JW	The Guaranteed Income Fund (GIF) is a group annuity product issued by Prudential Retirement Insurance and Annuity Company (PRIAC), Hartford, CT. Amounts contributed to the contract are deposited into PRIAC's general account. Payment obligations and the fulfillment of any guarantees specified in the group annuity contract are insurance claims supported by the full faith and credit of PRIAC. PRIAC periodically resets the interest rate credited on contract balances, subject to a minimum rate specified in the group annuity contract. Past interest rates are not indicative of future rates. This product is neither a mutual fund nor a bank product. PRIAC obligations are not insured by the FDIC or any other federal government agency. Contract form #GA-2020-IA-0805 or state variation thereof. Prudential Retirement is compensated in connection with this product when general account investment returns exceed the interest credited on contract balances. Prudential Retirement may earn fee revenue plus the foregoing compensation if your plan has agreed to pay contract charges--which are sometimes paid with respect to plan/participant recordkeeping and distribution services. For some plans, Prudential Retirement uses a portion of its aggregate compensation to satisfy the plan's request for allowances and for payments to defray plan expenses. If Prudential Retirement's aggregate compensation from this and other plan investment products exceeds the costs of servicing your plan, Prudential Retirement earns a profit otherwise, there is a loss.
